Why should I vote?

“We are trying to survive, and politicians do not care about our concerns!”

- **People living with poverty sometimes do not vote because we are too busy trying to survive.**
- **We also feel let down by politicians and feel apathy – we believe that there is no point in voting.**
- **However, politicians will care about our concerns *if* they know we vote, as they want to get into office.**
- **So, the more that people living in poverty vote, the more politicians will pay attention to our needs, and address issues like reducing poverty and increasing affordable housing.**

Politicians pay attention to voters' concerns, so people living in poverty need to vote to get policies in place to reduce poverty!
Voting can mean REAL change!
